

# Hang Deng

SEPTEMBER 19, 2020

---

## CONTACT

Hill Center, 110 Frelinghuysen Road, Piscataway, NJ 08854  
Email: [hdeng@stat.rutgers.edu](mailto:hdeng@stat.rutgers.edu)  
Personal website: [hang-deng.github.io](http://hang-deng.github.io)

---

## RESEARCH INTERESTS

High-dimensional Statistics, Central Limit Theorem, Shape Constrained Regression, Nonparametrics, Bootstrap methods, Statistical Machine Learning, and Neural Network Overparameterization

---

## EDUCATION

**Rutgers University**, New Brunswick, NJ  
*Ph.D. candidate*, Statistics  
Advisor: Prof. Cun-Hui Zhang  
*Expected to graduate in May 2021*

**Rutgers University**, New Brunswick, NJ  
*M.Sc. Statistics, Jan. 2017*

**Fudan University**, Shanghai, China  
*B.Sc. Mathematics and Applied Mathematics, June 2015*

---

## PAPERS & TECHNICAL REPORTS

- **Deng, Hang**. “Slightly conservative bootstrap for maxima of sums”. Submitted. Available at *arXiv:2007.15877* (2020).
- **Deng, Hang**, Qiyang Han, and Bodhisattva Sen. “Inference for local parameters in convexity constrained models.” Submitted. Available at *arXiv:2006.10264* (2020).
- **Deng, Hang**, Qiyang Han, and Cun-Hui Zhang. “Confidence intervals for multiple isotonic regression and other monotone models”. Submitted to *Annals of Statistics*, revision invited and submitted. Available at *arXiv:2001.07064* (2020).
- **Deng, Hang**, and Cun-Hui Zhang. “Isotonic regression in multi-dimensional spaces and graphs”. Accepted by *Annals of Statistics*, to appear. Available at *arXiv:1812.08944* (2018).
- **Deng, Hang**, and Cun-Hui Zhang. “Beyond Gaussian approximation: Bootstrap for maxima of sums of independent random vectors.” Accepted by *Annals of Statistics*, to appear. Available at *arXiv:1705.09528* (2017).
- Abdulla, G. M., **H. Deng**, B. Soper, J. Nagrad, and M. Nygard. “Filling the gaps: using a static data source to create a rich temporal dataset”. No. LLNL-CONF-752118. Lawrence Livermore National Lab.(LLNL), Livermore, CA, (2018).  
Technical report at *Second ISC HPC Applications in Precision Medicine Workshop, 2018*

---

## RESEARCH EXPERIENCES

**Lawrence Livermore National Laboratory**, CA *07/2017 - 09/2017*  
*NSF Graduate Intern* at Institute for Scientific Computing Research  
- Supported by **NSF-Mathematical Sciences Graduate Internship Program**.  
- Collaborated with the Cancer Registry of Norway to construct a personalized cervical cancer screening policy for women in Norway.  
- Proposed a deep learning framework which builds a long short-term memory (LSTM) neural network for each woman using her survey and screening test data and trains all neural nets with transfer learning.  
- See my story on [SIAM News](#) or the [NSF-Mathematical Sciences Graduate Internship Program](#) website.

---

HONORS & AWARDS	<ul style="list-style-type: none"> <li>• <b>Oberwolfach Leibniz Graduate Student</b>, Mathematical Research Institute of Oberwolfach, Germany, 2018</li> <li>• <b>Best Ph.D Qualifying Exam Performance</b>, Department of Statistics, Rutgers University, 2016. <i>Awarded for the highest score in qualifying exam.</i></li> <li>• <b>Conference Travel Award</b>, Rutgers University, 2018</li> <li>• <b>TA/GA Professional Development Fund Award</b>, Rutgers University, 2017-2018</li> <li>• <b>Outstanding Graduate of Fudan University</b>, Fudan University, 2015.</li> <li>• <b>Scholarship for Outstanding Students at Fudan University</b>, Fudan University, 2012-2014.</li> </ul>
SELECTED TALKS	<ul style="list-style-type: none"> <li>• Contributed Talk. JSM, online, “Confidence Intervals for Multiple Isotonic Regression and Other Monotone Models”, <i>August 2020</i></li> <li>• Invited Talk. JSM, Denver, CO, “Isotonic Regression in Multi-Dimensional Spaces and Graphs”, <i>July 2019</i></li> <li>• Invited Talk. International Workshop on Perspectives on High dimensional Data Analysis, Uppsala, Sweden. “Beyond Gaussian Approximation: Bootstrap for Maxima of Sums of Independent Random Vectors”, <i>June 2019</i></li> <li>• PhD Student Talk. Statistical Inference for Structured High-dimensional Models Workshop, MFO, Germany, “Beyond Gaussian Approximation: Bootstrap for Maxima of Sums of Independent Random Vectors”, <i>March 2018</i></li> <li>• Seminar Talk. Lawrence Livermore National Lab, Livermore, CA, “Feature Extraction from Patients Surveys to Facilitate Learning from Cervical Screening Data”, <i>Sept. 2017</i></li> </ul>
TEACHING	<p><b>Rutgers University</b>, New Brunswick, NJ</p> <p><i>Instructor</i></p> <ul style="list-style-type: none"> <li>- STAT 695: Linear Algebra and Multivariable Calculus Review (Fall 2020)</li> </ul> <p><i>Teaching Assistant</i></p> <ul style="list-style-type: none"> <li>- STAT 486: Computing and Graphics in Applied Statistics (Spring 2020)</li> <li>- STAT 285: Introductory Statistics for Business (Fall 2019)</li> <li>- FSRM 591: Algorithm Trading &amp; Portfolio Management (Fall 2018)</li> <li>- STAT 590: Design of Experiments (Fall 2018)</li> <li>- STAT 401: Basic Statistics for Research (Fall 2016, Spring 2017)</li> <li>- STAT 211: Statistics I (Fall 2016, Spring 2017).</li> </ul>
ACADEMIC SERVICES	Reviewer for <i>Annals of Statistics</i> , <i>Probability Theory and Related Fields</i> , <i>Statistical Sciences</i> and <i>Biometrics</i> .
SKILLS	R, C++, Python, Matlab, L <sup>A</sup> T <sub>E</sub> X, SQL
